

GROCERY STORE STOCK COUNT WITHIN A DETENTION CAMPUS

Case Study: Retail Inventory – Campus Store

A detention campus needed a solution to **update the grocery store on campus stock records**, so that they were accurate

GROCERY STORE STOCK COUNT WITHIN A DETENTION CAMPUS

Case Study: Retail Inventory – Campus Store

A detention campus is a national service that provides a safe and secure environment for young people remanded in custody or sentenced by the Courts for a period of detention.

REQUIREMENT

A detention campus needed a solution to update the **grocery store on campus stock records**, so that they were accurate.

The campus required RGIS to provide the following:

- **Count all stock** within the grocery store
- Stock count to be **completed twice a year** for accuracy
- The customer to complete **5% checks of completed counts**

SOLUTION

The campus partnered with RGIS to complete the **grocery store on campus stock record accuracy project**, and RGIS provided the following:

- Scheduled a team of **three experienced RGIS auditors**
- **Allocated time** to get through security checks
- Count was **completed manually**
- The customer completed checks on **5% of stock for accuracy checks**

RESULTS

The campus found by outsourcing the **grocery store on campus stock record accuracy project** to RGIS, the following results were achieved:

- The customer's **high standards and expectations were exceeded** at all times
- RGIS counted **5,000 to 7,000** units on each count
- Following the stock count the customer was able to **correct the stock records**

By partnering with RGIS, the detention campus were able to **update the grocery store stock records with confidence and accuracy**
